We have found following errors in the article “Direct Observation of Magnetic Transitions in a Nickel(II) Complex with Large Anisotropy” (*Chinese J. Inorg. Chem.* **2020**,**36**(6):1149-1156):

For Fig. 3-Top, 0 and 17 T spectra are reversed and the wavenumber range should be adjusted.

For Fig.3-Bottom, “ $B//z$ ” is shown twice.

Fig.3 should be replaced by the following figure. Supporting information (Fig.S1 and S2) should be revised as well.
